

Assessment Guidelines

King's Ely Year 12 STEM Scholarship

Candidates for the Year 12 STEM Scholarship will be expected to sit a 90 minute STEM assessment consisting of six questions (one each from Physics, Chemistry, Biology, Maths, Computing and Design Engineering) of which they must choose **three**.

The assessment of this award also consists of a short interview with King's Ely Senior's Head of Science, Ned Kittoe.

The interview will discuss the candidates approach and interest in the STEM suite of subjects. Candidates may wish to bring to the interview with them some examples/evidence of STEM involvement outside of the formal curriculum.
